COVID-19 Coronavirus

Clotilde Mafoton Sall
Chief Executive Officer

CORONAVIRUS PREVENTION

Thank you million times to all our donors. African Hope Committee was able to reach out to one of the most vulnerable population in Cameroon, the handicapped. Children with needs of social and health and education support. This was at Orphelinat Meinrad Hegba pour handicapés et nécessiteux at PK11 Bassa in Douala. Despite heavy rains in the morning where some of our volunteers on the ground were unable to participate as well as other kids not residing in the center due to lack of space to house them, the event was not cancelled or postponed. These other orphans and handicapped children were planned to come and be part of this remarkable day. COVID19 has no place in Africa. Face masks, detergents, Clorox, rice tapioca, salt, buckets, soaps were provided. Cements were the most needed at the center to help improve the environment, something that they asked. 20 bag of cements were donated. We thank African Hope Committee's friends, members of 1000 African women network , staff, volunteers and our board members. We thank our volunteer on the ground and the coordinator Brenda Sop for organizing the events and securing all the communications, including posters and tags for the buckets as well as coordinating with the volunteers. It took our coordinator and volunteers on the ground to investigate several centers to identify real needs before addressing this public health crisis that already infected millions of people around the globe and killed thousands of people. Visit www.afriquehope.org for your PayPal donations.
